FREQUENTLY ASKED QUESTIONS

WHAT IS MEASURE M?

Measure M is a general obligation (GO) bond measure on the June 7, 2022, gubernatorial primary election ballot. If approved by 55% of votes cast, it will authorize \$13 million to provide Anderson Valley Unified School District with the financial resources to make critical repairs and safety updates. **In addition, Measure M may qualify the District for state matching funds, if the bond is approved by voters.**

WHAT TAXPAYER PROTECTIONS ARE IN PLACE?

Measure M comes with taxpayer protections. An independent Citizens' Oversight Committee and a third-party auditor must review and audit all bond expenditures. Measure M includes a specific list of projects that bond funds may be spent on. Laws prohibit funds from being used for administrators' salaries, pensions, or benefits. **Laws also prohibit the state from taking Measure M funds to spend on other districts.**

WHAT WILL BE FUNDED BY MEASURE M?

- Upgrading HVAC systems to improve air quality and learning environments
- Improving student safety and campus security
- Replacing aging plumbing, septic systems, and roofs
- Renovating classrooms and facilities
- Building a multipurpose room at Anderson Valley Elementary
- Upgrading the agricultural program facilities at Anderson Valley High
- Renovating physical education facilities

WHAT IS A GO BOND?

California school districts commonly use GO bonds to fund improvement projects, such as constructing and renovating classrooms. Similar to a home loan, GO bonds are repaid over time. Funds to repay the bonds come from a tax on all taxable property—residential, commercial, industrial, and agricultural—located within the District.

HOW MUCH WILL MEASURE M COST?

Measure M's average annual tax rate is estimated to be less than 6¢ per \$100 of assessed valuation while bonds are outstanding. Assessed valuation should not be confused with market value. While bonds are outstanding, the assessed valuation is the value placed on the property by Mendocino County and is typically lower than market value.
